

RESCUE

Description

Immersed in nature, the teams become familiar with practices that enable intervening in unpredictable situations or in an emergency. Purifying water, lighting fire without matches, building a bridge are part of the programme.

Objectives

- Identifying and sharing out the competences of each one so as to hand out tasks efficiently.
- Trying out, training and helping each other to reach the utmost result.
- Trustfull collaborating and applying the principle of « he who is doing, knows ».
